Al Buraimi
Governorate

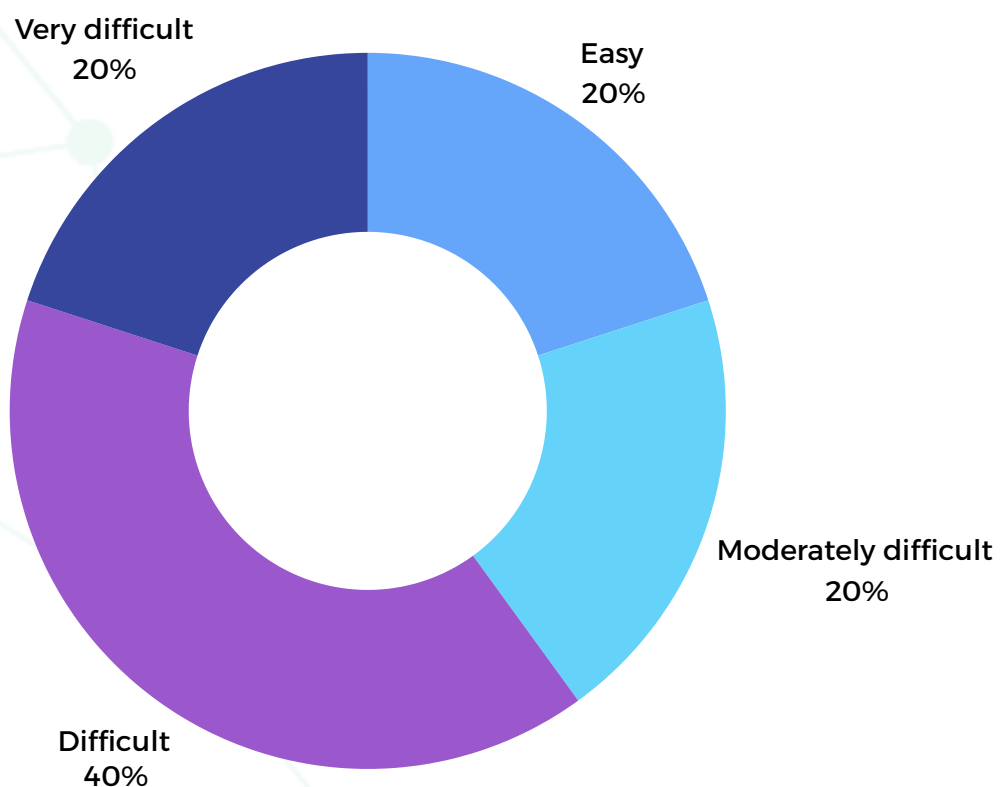

Results of the Investment Platform Survey

Digital Participation for Evaluating the Investment Experience in Al Buraimi Governorate

Number of Responses: 5

1 How easy is it to access and view investment services in the governorate?

Very easy	Easy	Moderately difficult	Difficult	Very difficult
0%	20%	20%	40%	20%

Services and Tools to Support Investment in the Governorate:

- 1 **Investment Land Map:** An interactive display of available lands for investment, with details about each plot, including area, price, and other relevant information.
- 2 **Investment Site Plans:** Offering investment proposals that align with existing and future projects to enhance the market value of investments.
- 3 **Streamlined and Flexible Procedures:** Improving investment processes to make them easier and faster, with reduced timeframes for approvals.
- 4 **Project Pathway:** Providing transparent information about ongoing and future projects while maintaining confidentiality for sensitive details.

Content and Information to Facilitate Investment Decisions:

- 1 **Conditions and Fees:** Clear information on general conditions and required fees for investment.
- 2 **Approval Details:** All necessary approvals and requirements to initiate the project from the start, including planning and zoning information.
- 3 **Basic Details:** Comprehensive information on all aspects of investment, including laws and regulations.
- 4 **Law Flexibility:** Clarification on how the laws accommodate investors and facilitate procedures.

Communication Mechanisms with the Relevant Team:

- 1 **Electronic Platform:** Using an electronic platform as the main communication tool, with clearly defined timelines for issue resolution.
- 2 **Phone Communication:** Providing phone contact options as an additional service for investors.
- 3 **Proposal Submission Mechanism:** Improving the request tracking system, ensuring that proposals are forwarded to officials if not resolved within the stipulated time.

Development Proposals for the Platform:

- 1 **Comprehensive Investment Plan:** Providing an overall investment vision for the governorate, including all projects and their interaction.
- 2 **Development Requests:** Adding a section for investors to request improvements around their projects, such as the creation of additional services.
- 3 **Internal Investment:** Enabling investors to submit proposals for new investments linked to their current projects.
- 4 **Response Speed:** Ensuring quick responses to requests while maintaining transparency in all procedures.

Required Services and Tools:

- 1 | Investment Land Map:** A vital tool for investors to understand available opportunities and evaluate land options. Comprehensive information aids in making informed decisions.
- 2 | Investment Site Plans:** Helps investors understand how their projects are linked to others, thus boosting market value.
- 3 | Streamlined and Flexible Procedures:** Enhances the investment application experience by reducing procedural complexity, attracting more investors, and increasing trust in the system.
